

WISMEC™

Amor User Manual

Notice for Use

Thank you for choosing WISMEC products! Please read this manual carefully before initial use. If you require additional information or have questions about the product or its use, please consult your local agents, or visit our website at www.wismec.com.

Product Introduction

Amor can support two kinds of atomizer heads catering different vaping habits: 0.5ohm for cloud-chasers and 1.0ohm for normal vaping demands. The appearance is aesthetically pleasing due to the transparent mouthpiece and the frosted atomizer tube which is a first of its kind.

Liquid Filling Process

- Turn atomizer upside down
- Screw off the atomizer base
- Slowly fill liquid into the space around the airflow pipe
- Screw on atomizer base

Note: Make sure the liquid level is between 10%-90% and do not fill liquid into the airflow pipe, or they may lead to leakage.

Adjust Airflow

There is an airflow slot located in the atomizer base. One can adjust the airflow by rotating the airflow ring. Rotate it clockwise, the slot will be exposed. The more the slot is exposed, the larger the airflow is.

Precautions

- This product are intended for use by adults 18 years old and over. Women who are pregnant or nursing, people with certain health conditions may be affected by this product. Please consult your health care practitioners before use.
- Keep all components away from children and pets.
- Do not attempt to combine the Amor

with parts from other brands of e-cigarettes. If it is damaged in this way, our company will not take on responsibility and your warranty will be void.

Warranty

Please consult with your WISMEC distributors for warranty or return policy. We are not responsible for any damages caused by human error.
